Bullying

Purpose of this policy
To support schools to create safe and respectful school environments and prevent bullying, cyberbullying and other unacceptable behaviours.

Policy
Schools must include a statement about bullying and cyberbullying behaviours in the Rights and Responsibilities section of their Student Engagement Policy.

Note: A Student Engagement Policy should include a positive statement about the school’s values and philosophy, and the related programs and strategies being implemented by the school to promote student engagement, high attendance and positive behaviours.

Definition
Bullying is when someone, or a group of people, deliberately upset or hurt another person or damage their property, reputation or social acceptance on more than one occasion. There is an imbalance of power in incidents of bullying with the bully or bullies having more power at the time due to age, size, status or other reasons.

This table describes the categories of bullying.

Note: Many distressing behaviours are not examples of bullying even though they are unpleasant and often require teacher intervention and management.

Mutual conflict: involves an argument or disagreement between people but not an imbalance of power. Both parties are upset and usually both want a resolution. Unresolved mutual conflict can develop into bullying if one of the parties targets the other repeatedly in retaliation.

Social rejection or dislike: is not bullying unless it involves deliberate and repeated attempts to cause distress, exclude or create dislike by others.
Single-episode acts: of nastiness or physical aggression are not the same as bullying. If someone is verbally abused or pushed on one occasion they are not being bullied. Nastiness or physical aggression that is directed towards many different people is not the same as bullying. However, this does not mean that single episodes of nastiness or physical aggression should be ignored or condoned as these are unacceptable behaviours.
